

Things to do with sticks!

Collect some small thin sticks together and
Have some fun with these 'sticky' activities!

Remember only to pick up sticks from the ground, never break them off a tree

Now try to:

- Lay them in order, shortest to tallest or thinnest to fattest
- Lay them out to spell your name
- Make a number line (1 stick, 2 sticks, 3 sticks etc),
above 10 add a stone/thick stick to represent 10.
- Lay out a times table (that could need a lot of sticks!)
- Use the sticks to make roman numerals
